Execution & Control of Operations

Focus on areas of prioritizing and sequencing work, executing work plans and implementing controls, reporting activity results, and providing feedback on performance. The course explains techniques for scheduling and controlling production processes, the execution of quality initiatives and continuous improvement plans, and the control and handling of inventories.

INSTRUCTOR: GARY LANDIS, CFPIM, CIRM, CSCP

Gary Landis, President of G.A. Landis Associates, has had experience as both consultant and practitioner in the field of Materials Management. Mr. Landis understands that the business world has become extremely complex and global in terms of customers, suppliers, and competitors. He has held positions with Unysis Corporation, Clow Corp., Allis-Chalmers and General Motors, just to name a few.

Mr. Landis' M.B.A. Comes from Kent State University, and his Ph.D. from University of Alabama. His accomplishments have included serving as President of APICS at the national level, certified in Production and Inventory Management at the fellow level and also certified in Integrated Resource Management. He is also the Conference Chair for the APICS 50th Anniversary 2007 International conference in Denver. Gary will bring to these seminars his expertise along with a professional view of these topics. Plan on attending this seminar to give you the professional advantage in today's marketplace
